THE MAGAZINE OF WESTERN LIVING

INDEX TO ALL EDITIONS • JANUARY 1976 TO DECEMBER 1976

HOW TO USE THIS INDEX

SUNSET *is published each month in four editions.* Because of the climate and other differences, many articles run in only one or two of the four editions. You can tell which edition of SUNSET you read by looking at the contents page of the magazine. At the upper left corner of the page you will see the name of the edition:

Northwest edition for Washington, Oregon, Idaho, and Alaska.

Central edition for northern and central California, northern Nevada, and Utah.

Southern California and Hawaii edition for coastal Southern California and Hawaii.

Desert edition for southeastern California, southern Nevada, and Arizona.

In the index listing, N denotes Northwest edition; C, Central edition; S, Southern California edition; and D, Desert edition. The word "all" tells you that an article has appeared the same month and page in all four editions. Index listings are written as follows: May 76 N, C (May, page 76, Northwest and Central editions).
